

Data Privacy Policy

The purpose of this Privacy Policy is to inform members of the Santa Barbara Newcomers Club (SBNC) regarding personal data the SBNC will collect, the use of that collected data, who has access to the data, the period for which the data is retained, and the rights of members should they have any questions or requests related to the data or to this data Privacy Policy.

By enrolling as a member of the SBNC and using the SBNC web site, site users agree to the conditions set out in the Policies and Procedures of the SBNC in effect at that time and as amended during their term of membership, and further agree to the terms of this Privacy Policy; and to the collection, use, and retention of the data as set forth in this Privacy Policy.

When joining the SBNC, you create an account on the SBNC website that includes your name, contact information and any other personal profile information you wish to provide. This contact information and additional personal profile information (collectively, “your profile information”) can be updated by you from time to time during your tenure as a SBNC member. Your profile information is maintained on the SBNC web site in a reasonably secure manner and is made available only to current registered members of the SBNC, via username and password access, during your tenure as a member. Via the SBNC Policies and Procedures, all members have agreed that all member information on the SBNC website is confidential and restricted to SBNC members only.

In addition, the SBNC maintains a record of all events posted to the SBNC calendar, and a list of registrants for each event as well as a record of billings and payments in connection with each such registration. This event-related information is not available to the general SBNC membership, but can be accessed by members of the Board of Directors.

Subsequent to the expiration of your SBNC membership, your name and contact information are moved to an archival storage which is not available to SBNC membership generally, but which can be accessed as needed by current members of the SBNC Executive Committee. All profile information other than name and contact information is purged from the SBNC system.

During its term of retention, during your term of membership and afterwards, as applicable, profile information as well as event-related information is stored on secure servers in accordance with industry standards for data security.

Data accessible to SBNC Executive Committee members may be shared with other SBNC members as appropriate to further the operations of the SBNC.

Any member having a question or request related to the terms of this Privacy Policy may direct communications to technology@sbnewcomers.org.
